PROJECTORVUE

Are you ready to turn your facility into a hub of mental agility and camaraderie? Look no further than the PROCTOR-VUE—the ultimate solution for seniors' entertainment and cognitive stimulation. You get 3 different software systems Including Nature-Vue, Quiz-Vue and Reminiscence-Vue.

NATURE-VUE

Nature-Vue: A groundbreaking entertainment solution for nursing home residents.

Calming Escape: Videos featuring chirping birds, rustling leaves, and gentle waves for relaxation.

Mental Stimulation: Exposure to nature improves cognitive function.

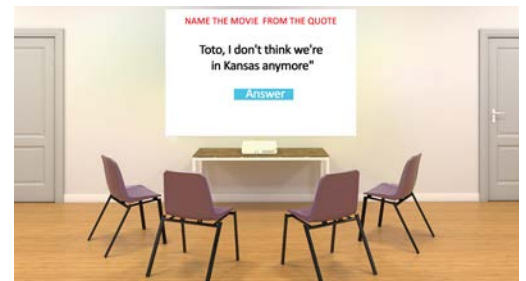

Social Bonding: Share awe-inspiring moments with fellow residents, discussing vibrant sunsets, majestic waterfalls, and playful wildlife.

QUIZ-VUE

In the common area, residents can gather around, answering trivia questions, solving riddles, and reminiscing about the past. From famous quotes to finish the phrase, the projector covers a wide range of topics, sparking discussions and keeping minds sharp. Whether it's a cozy afternoon or a lively group activity, the Quiz-Vue turns any space into a brain-teasing haven.

Mental Stimulation: Exposure to nature improves cognitive function.

Social Bonding: Create teams to get everyone working together.

REMINISCENCE-VUE

In the common area, residents can gather around to watch our 'home-style' videos of family gatherings, roads trips, moments in time on the farm from long ago, etc. These videos can stimulate cognitive function, evoke positive emotions, foster connections with past experiences, thereby enhancing their overall well-being.

Additionally, this content can serve as a valuable tool for caregivers, facilitating meaningful interactions and discussions that promote social engagement and emotional support.

PROJECTORVUE SOFTWARE, COMPUTER, PROJECTOR \$4995.00

EXPLORE VR FOR SENIORS

Are you ready to embark on a journey beyond the ordinary? Look no further than the Explore VR for Seniors, designed exclusively for memory care and nursing home residents seeking joy, connection, and adventure. Let's dive into the immersive features that make Explore VR for Seniors a game-changer.

See a video sample at
www.brightenmyfacility.com/video/

Explorer Virtual Reality Headset

Activities Coordinator with Explore Tablet Controller

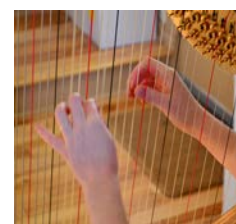

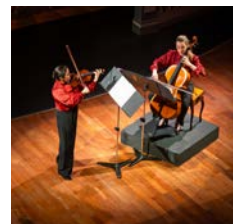

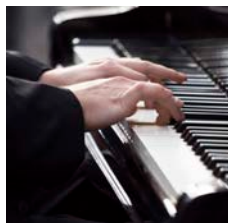

NATURE ESCAPES

Slip on your lightweight Explore VR headset, and suddenly you're standing on serene beaches, gazing at a majestic field, watching the sunset, or strolling through a lush forest. Feel the breeze, hear the birds, and let nature's tranquility wash over you.

MUSIC CONCERTS

Music has a profound impact on seniors, especially those residing in nursing homes. Our music concert series lets you listen to a concert like you are in the front row. Choose the piano, harp or classical music.

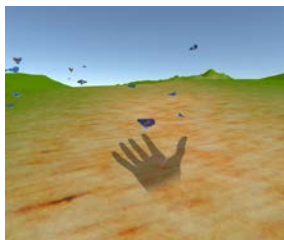

REMEMBER MAPS

Residents can revisit past homes or places they used to work and enjoy. Imagine the amazing conversations you can have when someone is looking at their old house, old place of employment and their old neighborhoods.

CALMING ACTIVITIES

Being active is good for all of us. This is especially true for seniors who need regular physical activity to maintain and improve their health and mobility. VR offers a variety of games, played while sitting in a chair, to promote an active lifestyle and have fun while doing so. Pop the bubbles, touch the butterflies, go fishing, plant the flowers, pick apples from an orchard and so much more!

SERENITY SENSORY

Tranquil Sensory stimulation plays a crucial role in supporting the well-being of older adults, especially those in nursing homes. Residents use our Explore VR to explore our sensory activities like throwing a lighted ball into the sky creating a shooting star.

SENSORY TACTILE NATURE WALL PANELS

See a video sample at
www.brightenmyfacility.com/video/

Engage residents while embracing natural themes with our Sensory Tactile Nature Boards. With the goal of encouraging memories of time spent in nature, these panels are striking, impactful to view and are full of sensory touch. Our boards are easy to clean because the surfaces are coated in an acrylic liquid that can withstand the wear-and-tear of daily contact in healthcare facilities.

Our tactile designs include: seashells, starfish, leaves, wheat, fishing nets, nautical ropes, tree surfaces, branches, and more. Each board comes with Easy Slide Rails to make changing simple & quick enabling you to take a board from one area to another without the frame, while keeping your facility looking fresh.

WALL MOUNTED MAGNETIC GREENERY ARRANGEMENT ACTIVITY KIT

Want to reduce stress, lower the level of anxiety and boost your mood? Try our Wall Mounted Magnetic Greenery Arrangement Activity Kit that provides residents with the materials needed to create their own artificial plant arrangements. These kits are popular to add a touch of greenery to their areas and are reusable on a day-to-day basis. Design your greenery panel and take a picture of the residents beside their creation. This kit includes one, 23" Magnetic Greenery Board, Easy Slide Rails, 100-piece assortment of flowers, leaves and decorating products.

WMMGA-1 \$649.95

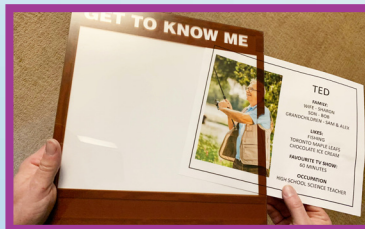

GET TO KNOW ME BOARDS

GET TO KNOW ME BOARD

"GET TO KNOW ME" helps initiate a conversation and helps you get to know your patients better. The "GET TO KNOW ME" Board contains information including what older adults prefer to be called, their favorite music, what makes them feel calm, their past occupations, hobbies, and the names of family members and pets. Size is 12" x 12. Applies to wall with double sided tape.

Family members easily create and print their own information page on a standard printer and insert the 8.5" x 11" paper.

GEKM-102 \$79.95

GEKM-101 \$79.95

PHANTOM BUS STOPS

Designed to reduce unsafe wandering

Phantom Bus Stops are placed in a hallway to ease the minds of anxious dementia patients eager to leave or wander. A bench is pushed up against the wall under an the Phantom Bus Stop. The idea is for the individual to sit on the bench and wait for the bus. Then a staff member can see this person, sit down and start talking. Allow the person to share where they are going, to their job or where they are going shopping. The goal is for them to forget they wanted to leave and continue their day.

(BENCH NOT INCLUDED)

"SOMEONE TO LOVE" THERAPY DOLLS

Therapy dolls have a remarkable effect on men & women in the middle and later stages of Alzheimer's disease. They are calming, soothing and bring the person back to a time in their life when they felt useful and had a sense of purpose, when caring for a young family member was the #1 priority. Alzheimer's doll therapy helps patients escape from a world where someone is always caring for them.
